SWIFT CARAVANS

NEW £300,000 TRAINING CENTRE
IS A CARAVAN INDUSTRY FIRST

Welcome to Swift

UK's No.1 brand for leisure vehicles

We are the UK's largest manufacturer of touring caravans, motorhomes and holiday homes. We've grown from simple foundations back in 1964, when our founder Ken Smith built his first touring caravan, to become the UK's number one leisure vehicle brand.

Our philosophy is to build leisure vehicles that are at the heart of your holiday, whether that be nestled in the countryside or by the sea, searching out active pursuits or simply enjoying a quieter pace of life. With a lifetime of memories waiting to be made, it's time to find your ultimate caravan!

More control with Swift Command

Available with the Challenger All Road range, Swift Command monitors and controls the onboard systems via a touch screen panel and a smartphone app, so you can always be in control.

With the convenience of your mobile device, you can access the onboard interface using Bluetooth when near your caravan or via your internet connection when remote.

Swift Command enables you to track system levels such as power, temperature, and humidity, and monitor the location of your vehicle. You can even control the heating, activating it for a warm return on colder days.

The app also lets you set up notifications to keep you informed of important functions, such as battery levels, frost alerts and alarm status.

Head to the Apple or Android store and search for 'Swift Command'.

SMART

Celebrating a decade of excellence with **Smart Construction**

As the trailblazer in the leisure vehicle industry, we have consistently raised the bar with our unwavering commitment to research and innovation.

This season, we are thrilled to commemorate a significant milestone - a decade of SMART Construction!

Providing you with peace of mind, SMART is an ingenious blend of materials and construction techniques that guarantee enhanced structural integrity, improved insulation and all-important weather resistance - ensuring your investment will stand the tests of touring and help retain your caravan's residual value.

Strong

The strong timberless body frame uses 'PURE', a tough, hard polyurethane based product, that is totally impervious to water and has been proven through use.

Modern

SMART uses modern materials produced using cutting-edge technology and has been developed to ensure the exterior profiles maintain the modern desirable looks our caravans are renowned for.

Aerodynamic

We continue to lead the way in aerodynamics using Computational Fluid Dynamics to help shape the bodyshell for better fuel consumption and safer towing.

Resilient

Our GRP outer and inner skins. GRP is more impact resistant than aluminium and can be easily repaired, ensuring long lasting good looks, securing your investment for the future.

Tested

Extensive safety and durability testing at the Millbrook track, and cold chamber testing down to minus 15°C and beyond puts prototypes through conditions most products will never have to experience in a lifetime.

ALL ROAD

New for 2024, Challenger All Road is an enhanced version of Swift's Challenger SE, featuring additional premium features to make this range extra special.

Inside, Challenger All Road embraces sophistication with its sleek lines and impeccable finishes. In the lounge, the seat cushions are wrapped in the stain resistant Galloway soft furnishing scheme, whilst the latest in technology is at your fingertips for easy control of the onboard systems.

Outside, the enhanced exterior graphics and diamond cut alloy wheels not only showcase its exclusivity but also ensure that heads turn as you arrive at your destination.

With four, four-berth layouts to choose from, there's a model tailored to every taste and preference.
